

Travel Relaxed Be Jet Lag Proof Any Time - Anywhere

FlyChill is scientifically formulated to assist the over 60% of American travelers that report pre and inflight anxiety, have trouble resting on flights and/or suffer from jetlag. The main ingredient is required by the Russian Space Program to be kept on all astronauts during space missions in case of severe anxiety and panic attacks. If it helps astronauts stay calm and relaxed, yet able to be focused on their mission at over 600,000 feet of altitude, it surely does the same for everyday travelers flying at 30,000 feet.

Consumer Benefits

- Calms Pre & Inflight Anxiety
- Cures Jet Lag
- Contains the Same Ingredient Russian Astronauts Use to Stop Panic Attacks in Space
- Tastes Great
- Breezes Through Airport Security
- Great for Overactive & Racing Minds
